The entry quotas given in paragraph 3.1.3 apply as maximum entry quotas.

- a) For each competition only the following Skaters may be entered:
- for 500, 1000 and 1500m: Skaters placed among the 24 best in the current World Cup ranking for the distance concerned, but for each distance maximum 12 Skaters will be allowed to compete;
 - for 3000m Ladies and 5000m Men: Skaters placed among the 24 best in the current World Cup of 3000+5000m Ladies and 5000+10000m Men rankings respectively, but maximum 12 Skaters will be allowed to compete;
 - for the Mass start competition: Skaters placed among the 30 best in the current World Cup ranking, but maximum 18 Skaters will be allowed to compete.
- b) If the actual number of entries will exceed allowed maximum of competitors for the competition concerned, then the entered Skaters with the lowest World Cup ranking will not be admitted. However, the best ranked Skater entered from the host ISU Member will in any case be admitted if the Skater meets the criteria as listed in subparagraph a) above.

4. Competition formats

4.1. Individual competitions skated in separate Divisions

For each individual competition the entered Skaters compete in two separate divisions with the currently best ranked Skaters competing in Division A, the remaining Skaters in Division B. However, all Skaters compete together in Division A in the following cases:

- a) When the number of entered Skaters does not exceed a certain limit, as indicated in paragraph 4.1.1.
- b) For all competitions in the last World Cup Competition of the season.

4.1.1. Number of Competitors in Division A

- a) For *500, 1000 and 1500m, Ladies and Men*:
- If 28 or less Skaters have been entered, all compete in Division A
 - If more than 28 Skaters have been entered, Division A shall consist of 20 Competitors
- b) For *3000m Ladies and 5000m Men*:
- If less than 20 Skaters have been entered, all compete in Division A.
 - If the number of entered Skaters is between 21 and 24, Division A shall consist of 12 Competitors.
 - If more than 24 Skaters have been entered, Division A shall consist of 16 Competitors.
- c) For *5000m Ladies and 10000m Men*:
- The number of Competitors in Division A shall be (maximum) 12.
- d) For *Mass start, Ladies and Men*:
- If 24 or less Skaters have been entered, all Skaters will compete in Division A (No Semifinals will be held in such case).
 - If more than 24 Skaters have been entered, races will be organized with Semifinals and a Final. In this case Semifinals cannot be canceled even if the total number of Skaters after the draw will be 24 or less in total.
- Each of the two Semifinals shall then be set up with at least 12 Competitors and with the same number of Skaters, unless there is an odd number of Skaters entered.
 - The entered Skaters are placed in the Semifinals according to their seeding (see Section 5.6), according to the following procedure:
 - Top seeded Skater: Semifinal 1
 - 2nd and 3rd seeded Skater: Semifinal 2
 - 4th and 5th seeded Skater: Semifinal 1, etc.
 - Not more than 1 Skater from the same ISU Member may compete in the same Semifinal. Therefore, the procedure described above for the distribution of Skaters in the two Semifinals may have to be adjusted accordingly. The Final shall consist of the 8 best ranked Skaters from each Semifinal. In the case of a withdrawal of a Skater qualified for the Final, this Skater will be replaced in the Final by the next ranked Skater from the Semifinal concerned.

Summary table regarding number of Competitors for Division A:

Mass start	all	all	16	16	18

4.1.2. Selection of Skaters for Division A (for Mass start see 4.1.1 d) above)

- a) In the *first Competition* the composition of Division A is determined by the final 2017/18 World Cup ranking for the competition category concerned and by the seeding of the entered Competitors, as submitted in the Online Entry System. The 2017/18 World Cup ranking determines the number of quota places for the ISU Member in Division A (subject to the entry quotas listed in paragraph 3.1.3, and to the upper limit of 2 Skaters from the same ISU Member for Mass start)
- b) In *all other Competitions* (also for the first competition over 5000m Ladies and 10000m Men, and for the second 500m race of WC № 1) the selection for Division A shall be based on the current World Cup ranks of the entered Skaters. When 500m are skated with two races in the same World Cup Competition, each race is considered a separate competition regarding the selection of Skaters for Division A.
- c) However, the following entered Skaters shall compete in Division A (This rule does not apply for World Cup Final):
 - Competitors promoted from Division B in the preceding Competition. Promotion is granted for Competitors who finished among the 3 best (ties included) in Division B. - d) Competitors with a "Wild card":
 - A Skater may use a "Wild card" for Division A only the first time the Skater competes in the competition (category) concerned in the World Cup 2018/19. A "Wild card" for Division A may be granted only if the Skater was placed among the 10 best in the final World Cup 2017/18 ranking.
 - The request for a "Wild card" should be made in Online Entry System when the Skater is entered for the Competition, and must be confirmed at the Team leaders' meeting before the draw for the distance concerned.

- b) Quartet starts shall not be used in Division A.

4.1.4. Scheduling of Division B races

- a) The races of Division B should be skated on the same day as the races of Division A for the competition concerned, before or after the Division A block. The time schedule for the races of Division B shall be announced at the Team leaders' meeting.

- a) Competitors are recommended to wear:
 - A helmet that conforms to the shape of the head. The helmet shall comply with the specifications for Short Track Speed Skating (ISU Special Regulations, Rule 291, paragraph 1 a) and with current standard for tests (like EN 1078, ICS 13.340.20, etc.). For Team Sprint races it is mandatory to wear helmets.

4.4. Demonstration competitions

With the consent of the ISU World Cup Coordinator and the ISU Speed Skating Technical Committee, the organizer of an ISU World Cup Competition may include demonstration competitions.

5. Pairing, drawing and starting order, issuing of start lists

5.1. Team leaders meeting and draw meetings

- a) A Team leaders' meeting shall take place before the first day of the Competition, with the purpose to confirm the final entries and to present race schedules and other logistic information. On subsequent days the Team leaders' meeting may be replaced by a procedure where Team leaders submit this information by a given deadline, and where information on race schedules etc. for the following day will be distributed to the Team leaders by other means.
- b) Before the first day of an ISU World Cup Competition there will be an opening draw meeting to announce the composition and starting order of pairs for the first competition day. On subsequent days the start lists for the following day will be determined by the Referee based on the entries confirmed at the Team leaders' meeting and the rules given below.
- c) Each participating ISU Member is obliged to attend Team leaders' meetings, but participation is restricted to one person (the officially entered Team leader or another person authorized by the Team leader).

5.2. Pairing and drawing at the first ISU World Cup Competition for single distances

- a) Before noon (12:00) on the day of the Opening draw meeting for the Competition, the Team leaders must confirm to the Referee a seeding of their entered Competitors, by order of quality, for all distances to be skated in the Competition. The Referee then places the Competitors in the respective order which corresponds to the number of Skaters from this ISU Member of the final World Cup ranking 2017/18 in the distance concerned, respecting the entry quotas defined in paragraph 3.3 above.
- b) For all of the short distances (500, 1000 and 1500m) Division A shall consist of the Competitors placed into top 20; for the long distances (3000/5000m) Division A shall consist of the Competitors placed into top 16. Division B shall consist of the remaining Competitors. Adjustments will be made in case of exceptional number of Competitors in Division A as per paragraph 4.1.
- c) Then in each Division Competitors will be ranked according to best achieved qualifying time. The starting order of the pairs shall be opposite to the ranking order of the Competitors – so that the Competitors with the slowest ranks will start in the first pair, and so on. The better ranked Competitor in a pair shall start in the inner lane. However, the last 3 Pairs (top 6 ranked Competitors) in Division A are to be drawn. In the case of an odd number of Competitors, the first pair will consist of a single Skater.

5.3. Pairing and drawing after the first ISU World Cup Competition

- a) Competitors, both in Division A and in Division B, shall be paired according to their individual World Cup rank. An extended World Cup ranking is established by ranking Competitors with no World Cup points according to their best achieved time in World Cup races during the season 2018/19. Competitors with no results from World Cup races held during the season shall be ranked thereafter, based on their best achieved qualifying time. The starting order of the pairs shall be opposite to the ranking order of the Competitors – so that the Competitors with the lowest ranks will start in the first pair, and so on. The better ranked Competitor in a pair shall start in the inner lane. However, the last 3 Pairs (top 6 ranked Competitors) in Division A are to be drawn.
- b) The above procedure applies also for the first (and only) competition in 5000m Ladies and 10000m Men, with the drawing based on the current extended World Cup ranking in the long distances.

5.4. Rearrangements

- a) In case of withdrawals after the draw, rearrangements of pairs in will be done according to rule 245.1.
- b) After rearrangement in Division A as described in rule 245.1, the best ranked Competitor(s) from Division B will be promoted to Division A and be placed in the vacant spot(s).
- c) In any case if a Substitute(s) is entered, he can only be placed in the vacant spot open in Division B.
- d) Rule 245.3 must be respected.

5.5. Composition of quartets

In the case of quartet starts, the four Competitors with the best World Cup ranking shall form the last quartet, and only the first quartet may be incomplete.

5.6. Mass start: starting orders and composition of semifinals

5.6.1. The first ISU World Cup Competition of the season

- a) If the competition is skated with one race (all Skaters in the Final) only, the seeding of the entered Skaters (according to the same criteria as for the individual distances, with exception of top 6 draw) will determine the starting order (lineup).
- b) If the competition is skated with Semifinals, the same seeding will be used to determine the composition of the Semifinals according to the procedure described in 4.1.1 d) above. The lineup in the Semifinals will then be determined by the seeding of the Skaters in the race. In the Final, the lineup will be determined by giving the winner of Semifinal 1 starting order no. 1, the winner of Semifinal 2 starting order no. 2, the second ranked Skaters in Semifinal 1 starting order no. 3, etc.

5.6.2. After the first ISU World Cup Competition

- a) If the competition is skated with one race (all Skaters in the Final) only, the current World Cup ranking of the entered Skaters will determine the starting order (lineup of Skaters). Skaters without World Cup points will be ranked according to their best achieved qualifying time for the 1500m.

- b) If the competition is skated with Semifinals and a Final, the current World Cup ranking (with extended ranking as defined above) of the entered Skaters will be used for the composition of Semifinals according to the procedure described in 4.1.1 d). This ranking will also be used for the lineup in each Semifinal and in the Final.

5.7. Team competitions

The composition and sequence of races will be determined according to paragraph 4.2.3 above.

6. Points and ranking system for World Cup rankings

7. ISU World Cup Speed Skating ranking rules

7.1. World Cup ranking for each competition category

The World Cup ranking for each competition category is determined by the number of points the Skaters (or national Teams) accumulate during the season. In the final World Cup ranking, as well as in the intermediate ranking during the season, a tie between Skaters/Teams with the same total of World Cup points will be resolved according to the following criteria (in order of priority) for determining the better ranked Skater/Team:

- The Skater/Team with the higher number of World Cup victories;
- The Skater/Team with the higher score of points in one single competition (race);
- The Skater/Team with the best time achieved in the World Cup for the distance/competition concerned.

7.2. Prizes

For each distance (category) prize money will be awarded for each individual competition and for the final classification at the end of the season. For each competition, prize money is awarded to the top 3 Skaters of Division A and the top 3 teams in the Team competitions. For the final World Cup ranking,

prize money is awarded to the top 10 Skaters in each of the individual distance categories (including Mass start competitions), and to the top 5 ranked teams in the Team competitions.
